

Vote **NO** on Question 3

Jungle Primaries represent a major threat
to our election system.

California Style Jungle Primaries...

Trample Your Freedoms

- They contradict the freedom of association found in Political Parties.
- Independents are already free to join parties during the primary, why should they make decisions for party members?

Are More Chaotic

- Question 3 allows for potentially dozens of candidates in a single race.
- Completing a ballot is longer and more confusing.
- Tabulating votes is significantly delayed and mistakes are common.

Are Open to Manipulation

- Rival parties can sabotage which candidates are chosen.
- Party platforms become irrelevant.
- Voter confusion skyrockets.

Don't let Jungle Primaries change
how we carry out elections.

What Rank Choice Voting Looks Like

A ranked choice ballot requires very detailed completion
otherwise there is a risk of it being invalidated.

Imagine how long it would take to make five
decisions for every state-level race!

We do not need to introduce more complexity and
confusion in our elections. Rank Choice Voting is
bad for everyone who cares about simple, efficient,
and trustworthy elections for Nevada Voters.
